

PerioVision Simplifeye

Can't Get Ahead of Your Schedule? Are Your Patients Waiting Too Long? Tap. View. Go.

Your practice is a busy, dynamic environment where different members of your team interact with dozens of patients every day. So how do you keep track of who your visiting patients are, where they're located, and what they need—along with preventing the bottlenecks and miscommunications that cost extra time and money?

Simplifeye, a PerioVision solution, provides innovative answers to these important questions by sending active, real-time information from PerioVision about your patients, your schedule and your team to any Apple Watch or iPhone.

The Simplifeye Watch App

- Discreetly send and receive instant messages
- Intelligently triage your appointments
- View your appointment and patient details
- View and respond to push notifications and alerts from your team

Make Everyone on Your Team More Productive

Simplifeye gives everyone on your staff the information they need to move patients smoothly and efficiently through your practice. With Simplifeye you can:

- Get up to speed on important patient history and treatment information quickly when you're on the go
- Build a patient follow-up list with a few taps—and then place those calls from whatever device happens to be most convenient
- Receive active push notifications and messages about important tasks
- Replace sticky notes, headsets, and room-to-room searches with messages sent discreetly from Simplifeye Dashboard, iPhone or Apple Watch

Provide a Personalized Patient Experience

Simplifeye improves your ability to interact naturally and effectively with your patients—by giving you faster, easier access to their information. This includes making it easy to:

- Streamline workflows, and reduce wait times
- View patient information during procedures
- Reduce risks with patient allergy alerts
- Greet patients by name with a glance at your wrist

Traditional, Mobile, and Wearable—All Working Together to Improve Your Practice

Simplifeye and PerioVision offer you the freedom to work on whatever device happens to be most practical and available at the time—and switch seamlessly between different devices as you move through your day.

The Simplifeye Dashboard

- Send and receive instant messages between your staff and providers
- Get live practice overview of current wait times, patient locations and provider assignments
- Know which providers are busy
- See upcoming appointments

The Simplifeye iPhone App

- Build patient call lists with a single tap
- Make follow-up calls without revealing your personal phone number
- View your upcoming schedule and past appointments
- Send and receive instant messages with your team

Stay Ahead of Your Daily Schedule

Simplifeye shows your entire clinical schedule—past, present and future. In the office, instantly see which patient is waiting for you in the next operator. Later out of the office, you can check your schedule and plan your week with a glance at your wrist.
